The time period for reply, if any, is set in the attached communication.

Office Action Summary

Application No.

10/763,631

Applicant(s)

HALLIDAY ET AL.

Examiner

Reginald L. Alexander

Art Unit

1761

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 August 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-22 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 16, 17 and 20-22 is/are allowed.
- 6) ☒ Claim(s) 1-15, 18 and 19 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
- 1) ☒ Certified copies of the priority documents have been received.
 - 2) ☐ Certified copies of the priority documents have been received in Application No. _____.
 - 3) ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-15, 18 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Klein '740 in view of Knodt et al.

There is disclosed in Klein a cartridge 11 containing one or more beverage ingredients 13 and being formed from substantially air and water impermeable materials, the cartridge comprising: an outer member 14 defining a storage chamber, having an open upper end and a closed lower end 32; a lid 12 sealing the open end, an inlet being formed in the lid by an injection means; a central conical member or inner member (load bearing member) extending between the upper and lower ends; a discharge spout or apertures (figures 1 and 2) associated with the inner member, forming an outlet for a beverage; and a filter 15 joined to the inner and outer members. (See US Pat# 4,452,130 for more details of filter cartridge)

Knodt discloses the construction of a filter cartridge, having inner and outer members, form as two separate components.

It would have been obvious to one skilled in the art to construct the cartridge of Klein from two separate members as disclosed in Knodt, to provide an alternative construction method as opposed to a single piece arrangement.

In regards to the compressive load of which the inner member can withstand, such is an obvious matter of design choice which would be dependent upon the type of use (beverage maker) desired for the cartridge.

It should be noted that it has been held that where the general conditions of a claim are disclosed in the prior art, discovering optimum or workable ranges as well as an optimum value of a result effective variable involves only routine skill in the art.

Allowable Subject Matter

Claims 16, 17 and 20-22 are allowed.

Response to Arguments

Applicant's arguments filed 27 August 2007 have been fully considered but they are not persuasive. Applicant argues that the Klein reference fails to disclose an outer member having a closed end and an open end sealed by a lid. Applicant contends that the closed end referred to by the examiner is really an open end sealed by a closure 32. Thus, the device has two open ends. While this may be the case, it does not preclude the fact that the presence of the closure creates what can be referred to as a closed end. This point is strengthened by the statement that the end is sealed by the closure.

In regards to the flow path, the path is defined to include the storage chamber and therefore is between the storage chamber and discharge spout.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Reginald L. Alexander whose telephone number is 571-272-1395. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Keith Hendricks can be reached on 571-272-1401. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
